

X4 Diving Board Mount

Installation and User Guide

MAZTECH
INDUSTRIES

Installing onto X4-FCS™

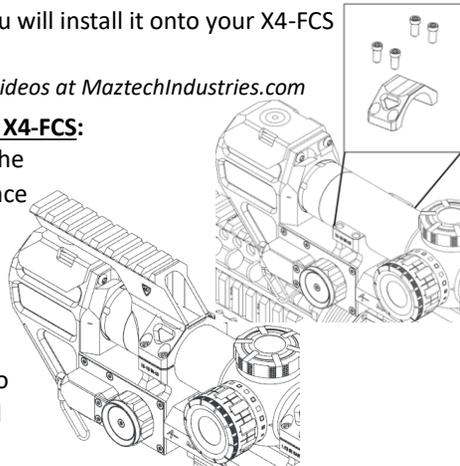

If you haven't yet installed your LPVO onto your X4-FCS:

Keep the X4 Diving Board Mount handy and you will install it onto your X4-FCS as part of the LPVO installation process.

➤ See *X4-FCS User Manual* or *online instructional videos* at MaztechIndustries.com

If you already have aligned your LPVO to your X4-FCS:

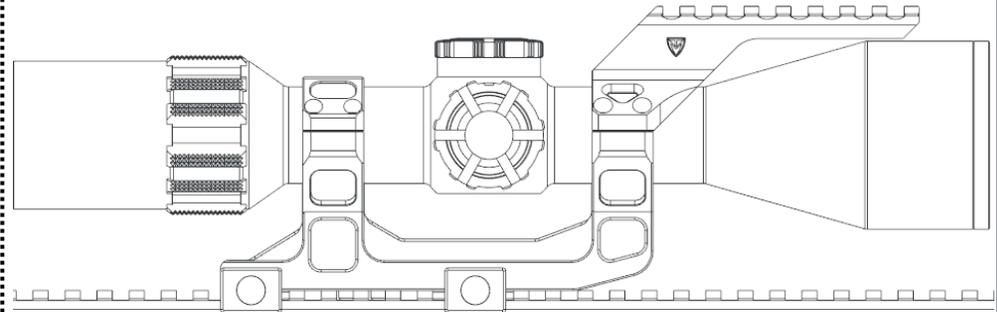

1. Use a T15 Torx tool (provided) to remove the **front scope ring** from the X4-FCS and replace it with the X4 Diving Board Mount:
2. **Before final tightening:** Use the X4-FCS Display→Alignment menu to verify your LPVO is still aligned to your X4-FCS.
3. **After final tightening:** It is recommended to re-zero your LPVO and perform final digital alignment (see *X4-FCS User Manual*).

Installing Onto Geissele® or Reptilia® Scope Mount

The X4 Diving Board Mount is designed to replace the front scope ring

- It is recommended to use the fasteners that came with your Geissele® or Reptilia® scope mount.
